

# The All-in-One Solution: SMB Storage, Data Protection, and File Sharing

## Meet all SMB storage needs with a single appliance

CTERA's innovative all-in-one storage appliance provides local backup, file sharing, cloud replication, and mobile access, all in a single tightly integrated product, delivered at a fraction of the cost of traditional disparate solutions.

The CTERA solution doesn't require a cloud connection to start, providing a robust storage solution that is cloud-ready. Future-proof your customers with on-premises features needed today, and built-in cloud services ready to be turned on at any time.

### Local Backup

For the entire office including laptops, desktops and servers in a single solution

### File Sharing

Share and manage files locally with built-in NAS functionality replacing file servers

### Cloud Replication

Integrated on-demand offsite data replication for disaster recovery

### Mobile Access

Access and share files securely on tablets and smartphones

### Easy to Manage

- Centrally managed appliances
- Real-time monitoring & logging
- Remote troubleshooting & firmware upgrades
- Reduced onsite visits

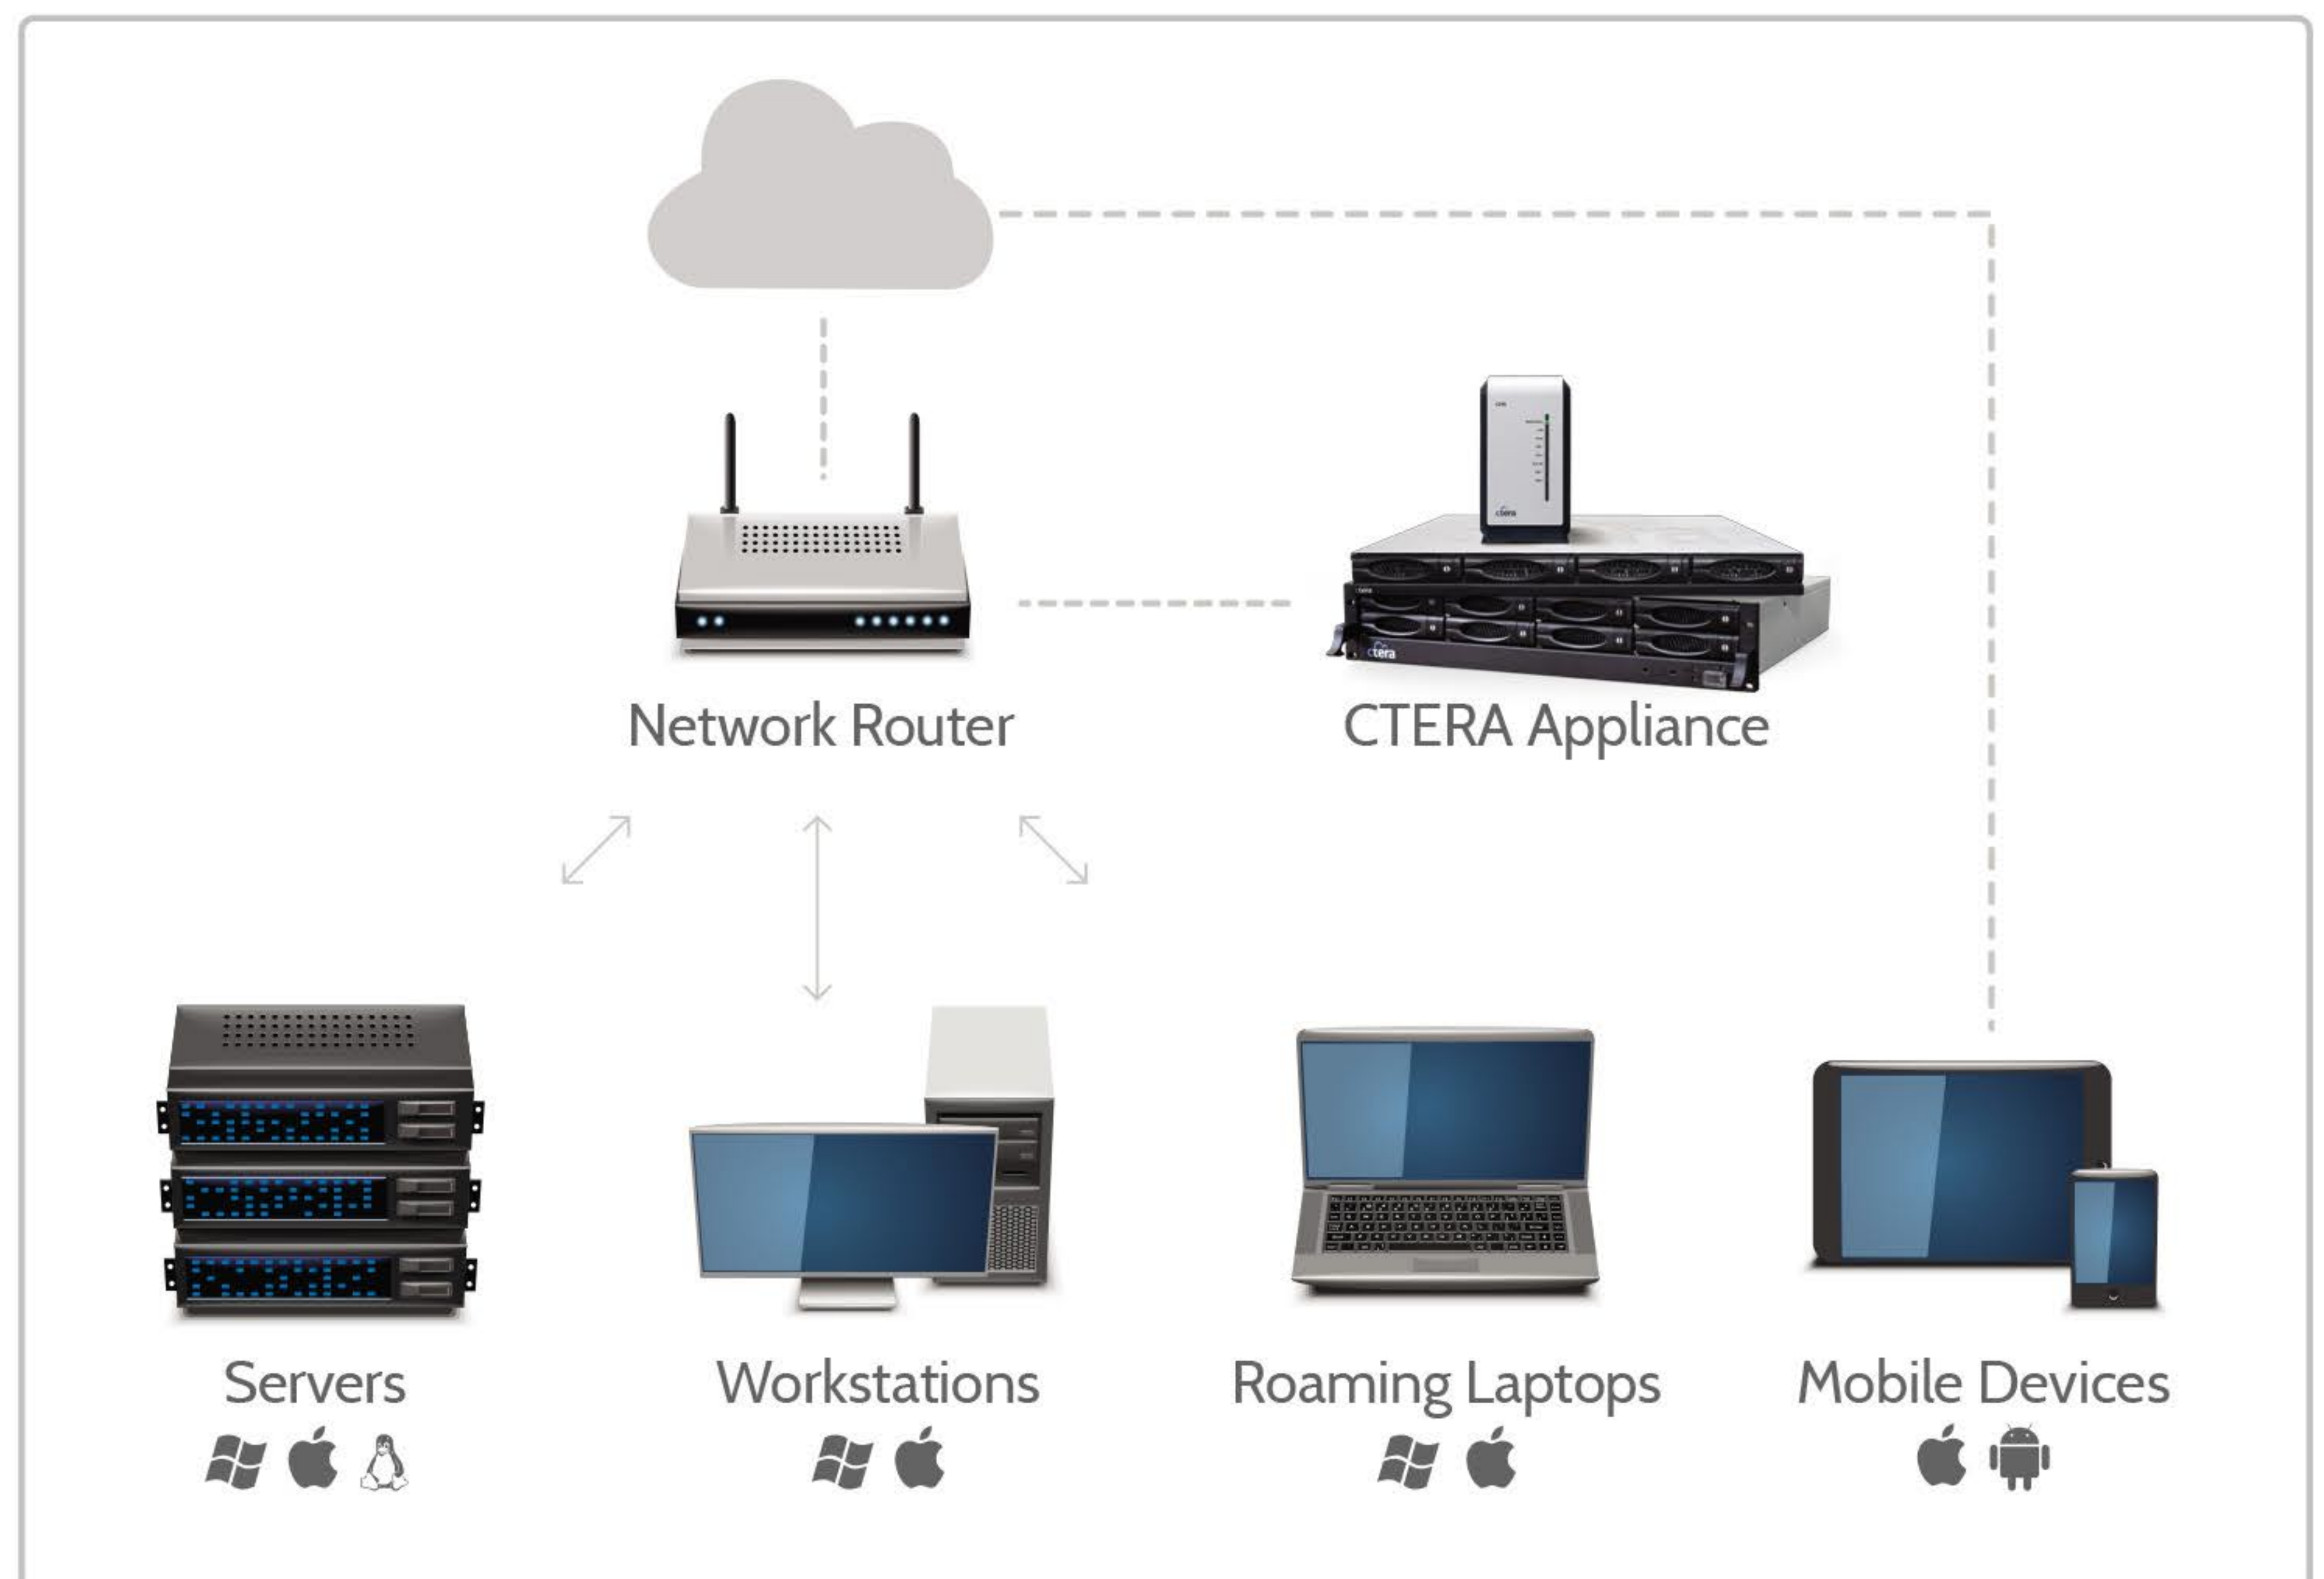

### Easy to Use

- Windows shell integration
- End-user self-restore
- Web-based management
- Mobile file access

## How It Works

The CTERA solution comprises:

- CTERA storage appliances at the customer premises
- End-point software agents on laptops, desktops and servers
- Mobile app for secure mobile file access on iPhone, iPad and Android devices
- CTERA Portal in the cloud that provides central management of customer-premises appliances

### Local Backup

- File & Bare Metal
- Exchange, SQL, AD Recovery
- Automated
- Incremental
- Windows, Mac, Linux

### NAS

- RAID 0/1/5/6
- NFS, CIFS, AFP, FTP, rsync
- AD integration
- Thin Snapshots

### Cloud Replication

- AES-256 + SSL
- De-duplicated
- Bandwidth Optimized
- Incremental
- Mobile File Access

### Managed Cloud

- Centralized Management
- On-demand Cloud Capacity
- Retention Policies
- Secure & Redundant
- No cloud lock-in

## Right-Sized Appliances

Sized to fit the technical and budget requirements of SMB customers with no hard drive lock-in:

### CTERA C200

**Micro Business**  
5-20 users  
2-bay, up to 6TB raw  
RAID-1

### CTERA C400

**Small Business**  
20-50 users  
4-bay, up to 12TB raw  
RAID-5/6

### CTERA C800

**Small-Medium Business**  
50-100 users  
8-bay, up to 24TB raw  
RAID-5/6
